Highly motivated and results-driven full-stack developer with over 6 years of experience building and maintaining various applications.

WORK EXPERIENCE

Seedooh Pty Ltd.

Full-Stack Developer | Feb 2020 - present
- Developed an ad verification system for public space media, which required handling a large volume of data (over 10 billion records) to deliver 100% accurate results.
- Developed an ad scheduler system, which required an advance algorithm to solve complex conditions.
- Maintaining the high availability of over 20 AWS environments in several regions and zones.

ContributionDAO

Frontend Developer & Core Builder | Part-time
- Developed a decentralized talent aggregator platform.
- Researched and implemented web3 technologies on the platform, ensuring that best practices and security considerations were incorporated.

Neversitup Co., Ltd.

Backend Developer | Feb 2019 - Feb 2020
- Participated in the entire application lifecycle, with a focus on coding and debugging.
- Researched, and implemented a container orchestration tool using GKE, and migrated an existing project to it.
- Researched and implemented a micro-service architecture on a digital lending platform.

Android Developer | Jun 2016 - Feb 2020
- Responsible for developing the apps from scratch, adhering to the provided designs.
- Collaborated with the backend team to design APIs.
- Led and managed a team of developers, setting goals, assigning tasks, and providing guidance and support.
